

ALL THINGS FLORAL

Add a sea of beautiful blooms, from when they arrive to when they leave.

Flowers can change the way a wedding feels.

They add a pop of colour, a dash of panache and create a sea of romance that can take your breath away when you enter a room. It's the floral detail that makes all the difference.

Most couples spend around R25 000 on flowers, depending on number of guests, seasonality, the scale of the arrangement and the type of bloom. We can tailor- make yours, using everything from natural inspiration like branches, leaves and pine cones to unusual colour palettes and textures. Our one-of-a-kind, 'fresh from the garden' designs eliminate the overly commercial déjà vu.
