

# STYLE GUIDE

**Your personality and style rolled up in a concept design & coordinated on the day.**

Your wedding, your way, with a little style help.

We know you've probably been furiously pinning away, stalking friends' Facebook wedding albums and dreaming up a million details for your moment in the limelight. Feeling a little snowed under? We can take everything you want, combine it with trends and industry expertise, make it reflect your personality and give it back to you in a neat and tidy package. What's this? A style guide. Your style guide. Made for you and only you. Once we've created a carefully planned design concept, we find the perfect partners and suppliers to make it all happen.
